## Adult Census Income

Ref Link: https://www.kaggle.com/uciml/adult-census-income

1. Explore the data

2. The Adult dataset is from the Census Bureau and the task is to predict whether a given adult makes more than $50,000 a year based attributes such as education, hours of work per week, etc..

This small task is counted as a warming task but it should also be submitted at the end of this "Baustein".
